### Course Information

#### Course Overview
- **The Children’s Hospital of Philadelphia proudly presents the 2014 Annual Pediatric Surgical and Trauma Nursing Conference.** The format for this two-day program will feature general lectures with afternoon concurrent sessions. The content options will be available in all levels of nursing expertise. Expert faculty will share lessons they have learned from managing children who experience unexpected illness and trauma. The faculty will present your practice and learn how you can continue to make a difference at the hospital bedside one family at a time.

#### Learning Objectives
- At the completion of the two-day course, participants will be able to:
  - Identify challenges that face healthcare and nursing for the pediatric patient population
  - Review current treatments and technological advances relevant to the care of children with chronic and surgically treated related issues
  - Discuss the impact that trauma and surgical interventions can have on the physical and emotional decline of the pediatric patient

#### Nursing Accreditation Statement
This activity is submitted to the PA State Nurses Association for approval to award contact hours. PA State Nurses Accreditation is an approval of continued nursing education by the American Nurses Credentialing Center’s Commission on Accreditation.

### Call for Abstracts
The Conference Directors and Planning Committee invite you to submit an abstract for consideration for the Poster Session held during the conference. Share your knowledge and experience on Surgical and Trauma Nursing topics. Topics may include: best practices in nursing procedures, new advances relevant to the care of children with chronic and surgically treated related issues, and research in process or previously presented posters are welcome. The format for this session includes oral presentations, poster display, and discussion time.
