Speakers Bureau

Adolescent Medicine

Kenisha Campbell, MD
Eating Disorders, PCOS, Menstrual Disorders, Confidentiality and Preventative Healthcare in adolescents

Nadia Dowshen, MD
Care of Transgender and Gender-Expansive Children and Adolescents
HIV Prevention and Treatment in Adolescents

Ken Ginsburg, MD
Addressing Adolescent Risk by Building on Strength
Enhancing Childhood Resilience through Effective Parenting

Eleni Lantzouni, MD
Eating Disorders- Update on Recognition and Management for Primary Care Providers

Rebecka Peebles, MD
Eating Disorders- Update on Recognition and Management for Primary Care Providers

Jerilynn Radcliffe, PhD
Consent and Confidentiality in Adolescents
Mental Health Issues in Adolescents Living with HIV
Traumatic Stress and Resiliency in Adolescents with HIV

Michele Zucker, MD
Contraceptive Technology Update
Evaluation and Management of Menstrual Problems in Adolescents

Allergy & Immunology

Antonella Cianferoni, MD
Food Allergy
Genetics of Food Allergy

Rahul Datta, MD
Food Allergy

Joel Fiedler, MD
Allergy Management at School
Asthma
Overview of Allergies

Jennifer Heimall, MD
Atopic Dermatitis/Eczema
Food Allergy Testing/Management

August 31, 2020
Immunodeficiency
Newborn Screening for Immunodeficiency

**Soma Jyonouchi, MD**
Primary Immunodeficiency
- Chronic Granulomatous Disease (CGD)
- Common Variable Immune Deficiency (CVID)
- Cornelia De Lange Syndrome
- Hereditary Angioedema (HAE)
- NEMO
- Severe Combined Immune Deficiency (SCID)
- Wiskott Aldrich Syndrome (WAS)
- X-Linked Agammaglobulinemia (XLA)

**Katie Kennedy, MD**
Biologics
Food Allergy
AR/IT
Humoral Immune Deficiencies

**Nick Pawlowski, MD**
Allergy Management at School
Asthma
Overview of Allergies

**Gita Ram, MD**
Food Allergy
Food Challenges

**Rushani Saltzman MD**
Allergy Management at School
Food Allergy
General Pediatric Allergy Topics

**Jonathan Spergel, MD**
Eosinophilic Esophagitis
Food Allergy
Overview of Allergy

**Kathleen Sullivan, MD**
Gene Regulation
Granulomatous Diseases
Inflammation
Overview of Immune Deficiencies
Primary Immune Deficiencies
Systemic Lupus Erythematosus

**Terri Brown Whitehorn, MD**
Allergy Management at School
Allergy Overview
Eosinophilic Esophagitis
Food Allergy
Food Protein Induced Enterocolitis Syndrome

**Anesthesiology & Critical Care Medicine**
**CARDIAC ANESTHESIOLOGY**

**Lisa Montenegro, MD**
Preparing Children & Their Families for Anesthesia & Surgery - What's Involved, What to Expect & What Sorts of Questions to Ask

**James Steven, MD**
Anesthetic Implications of Congenital Heart Disease in Children & Adults
Inotropic Drugs in Neonates
Pediatric Patient Safety

**Anesthesiology and Critical Care Medicine**
**CARDIAC INTENSIVE CARE**

**Geoffrey Bird, MD**
Approach to Stabilizing the Ill Newborn With Complex Congenital Cardiac Disease
New Ideas in Risk, Reliability, and Safety Engineering in Pediatric Medicine/Complex Congenital Cardiac Disease
New Ideas, Rationale and Methods for Safety Culture Improvement to Improve Outcomes in Pediatric Medicine/Complex Congenital Cardiac Disease
Principles of Postoperative Care in Complex Congenital Cardiac Disease

**Aaron G. Dewitt, MD**
(Several lesion based lectures designed for neonatologist)
Cardiac Catheterization for the Non-Cardiologist
Chronic Critical Illness in Cardiac Patients
Delivering Serious News
Murmurs
Pathophysiology of Congenital Heart Disease

**Maryam Naim, MD**
Acute Decompensated Heart Failure
Cardiopulmonary Interactions
Clinical Trials in Pediatric Cardiac Critical Care: Whats New?Whats next? Do We Care?

August 31, 2020
Children's Hospital of Philadelphia

Speakers Bureau

EEG Monitoring in Neonates Following Surgery with Cardiopulmonary Bypass
Mechanical Support VAD and ECMO
Pediatric Cardiac Emergencies
Principles of Postoperative Care in Complex Congenital Cardiac Disease
Resuscitation of Newborns With Critical Congenital Heart Disease
Staying Alive: Pediatric Out of Hospital Cardiac Arrest and Bystander CPR
Vasopressors and Inotropes

Anesthesiology and Critical Care Medicine

CRITICAL CARE MEDICINE

Robert Berg, MD - Chief, Division of Critical Care Medicine
Adult Cardiac Arrest and CPR
Adult In-hospital Cardiac Arrests
Adult Out-of-hospital Cardiac Arrests
Circulatory Shock in Children
Hands Only CPR
Pediatric Cardiac Arrest and CPR
Pediatric In-hospital Cardiac Arrest
Pediatric Out-of-hospital Cardiac Arrest
Pediatric Ventricular Fibrillation and Defibrillation
Update on Adult Basic Life Support
Update on Pediatric Advanced Life Support
Update on Pediatric Basic Life Support

Donald L. Boyer, MD
#TechnologyInMedicalEducation: Harnessing Technology to Enhance Teaching & Learning
“See One, Do One, Teach One” Revisited: A Framework for Teaching Medical Procedures
Competence-Based Medical Education
Critical Conversations – Communication in the ICU (Using the Vital Talk approach to difficult conversations)
Curriculum Develop 101: An Overview
Developing Goals & Objectives for Educational Sessions in Medicine
Hemodynamic Monitoring – Arterial & Venous Waveform Analysis
How and Why We Learn: An Overview of Key Educational Theories
How and Why We Learn: An Overview of Key Educational Theories
Simulation in Medical Education – History & Current Uses
Venous Return in Critical Illness

Thomas W. Conlon, MD
Bedside Ultrasound: The Evolution of the Modern Stethoscope
Current Assessment and Management Strategies for Pleural Effusions
Vascular Access in the Pediatric Setting: Controversies and Considerations

Daniela Davis, MD
High Flow Nasal Cannula

August 31, 2020
High Frequency Percussive Ventilation  
Quality Improvement Initiatives in the Intensive Care Unit  
The Culture of Patient Safety  

Aaron Donoghue, MD  
Pediatric Emergency Airway Management  
Post Resuscitation Care  
Simulation In Pediatrics  
Update on Pediatric CPR and BLS  

Jimmy W. Huh, MD  
Cases in the Pediatric Intensive Care Unit  
Pediatric Neurocritical Care  
Pediatric Traumatic Brain Injury  

Richard Lin, MD  
ARDS  
Chronically Critically Ill Children  
Helios  
Mechanical Ventilation  
Simulation Training for Families  
Tracheostomies  

Justin Lockman, MD, MSEd  
Bedside Monitors Explained  
Consent and Assent in Pediatric Anesthesia: Ethics and Legal Issues  
Controversies in Pediatric Anesthesia  
Crisis Resource Management Fundamentals  
Crisis Resource Management principles  
Life After Powerpoint: 21st Century Medical Education  
Mastering Bedside Monitors  
Neonatal Anesthesia  
Pediatric Critical Care for the Anesthesiologist  
Perioperative Airway Emergencies  
Professionalism in Pediatric Anesthesiology  
Trauma Potpourri  
Why I’m Afraid of Babies (and you should be, too!)  

Matthew R. Maltese, Ph.D.  
Bioengineering Research in the Clinical Environment  
Pediatric Traumatic Brain Injury  

Wynne Morrison, MD  
Disclosure of Medical Error  
End-of-life-care
Patient/Family Communication
Pediatric Ethics

**Vinay Nadkarni, MD**
CPR and Resuscitation in 2020
New Horizons for Advanced Life Support
New Horizons for Pediatric Critical Care
Pediatric CPR and Emergency Cardiovascular Care
Pediatric Resuscitation Towards 2020
Simulation and CPR Research and Impact on Patient Outcomes
Simulation and Patient Safety
Simulation in Basic and Advanced Cardiac Life Support
Sudden Cardiac Death: Prevention and Treatment
Training and Patient Safety in the ICU
Transforming CPR Death: Prevention and Treatment
Virtual PICU

**Akira Nishisaki, MD**
Bedside Ultrasound in Pediatric ICU: Case Discussion
Educational Needs Assessment for Simulation Curriculum Development
Is the Use of Bedside Ultrasound Standard of Care? Contributions to Quality and Credentialing
New Trend in Simulation-based Education in PICU
Pediatric Airway Management in the PICU

**Robert Sutton, MD**
Epidemiology and Biostatistics
Inter-disciplinary Post-Cardiac Arrest Debriefing
Pediatric Cardiac Arrest
Pediatric Quality of CPR

**Vijay Srinivasan, MD**
Endocrine Dysfunction in Critically Ill Children
Fulminant Hepatic Failure in Critically Ill Children
Nutritional Implications of Disorders in Critical Care
Scoring Systems in Pediatric Critical Care: PRISM, PIM and more!
Strict Glucose Control in Critically Ill Children

**Alexis Topjian, MD**
Epidemiology and Statistics
ICU Seizures
Post Cardiac Arrest Neurological Injury
Post Resuscitation Care and Goal Directed Therapy
Therapeutic Hypothermia After Cardiac Arrest

**Scott Weiss, MD**
Speakers Bureau

Microcirculatory and Mitochondrial Dysfunction in Sepsis and Organ Failure  
Pediatric Sepsis  
Procalcitonin

Nadir Yehya, MD  
Pediatric ARDS  
Pediatric Biomarkers  
Pediatric Mechanical Ventilation  
Pediatric Non-invasive Ventilation and HFNC

Athena Zuppa, MD  
Clinical Pharmacology in the Critically Ill  
Clinical Trial Development  
Drug Utilization  
Mananging an IND  
Pharmacometrics

Anesthesiology & Critical Care Medicine  
GENERAL ANESTHESIOLOGY

Stephanie A. Black, MD, EdM  
Feedback  
Pediatric Developmental Respiratory Physiology  
Professional Development  
Substance Abuse in Anesthesia  
Teaching and Learning

David Cohen, MD  
Sedation of the Pediatric Patient

Ellen Deutsch, MD  
Organizational Resilience: Are Humans the Problem, or the Solution?  
Safety-I and Safety-II  
Simulation and System Improvement  
Simulation-based Boot Camps  
Using Simulation to Improve Safety and Quality in Healthcare  
Work-as-Imagined vs Work-as-Done

Jeffrey M. Feldman, MD - Chief, Division of General Anesthesiology  
Advanced Ventilation in the Operating Room

John Fiadjoe, MD  
Anesthesia for Cleft Palate Surgery  
Anesthesia for Laparoscopic surgery  
Mindfulness and Medicine
Obesity and Anesthesia
Pediatric Difficult Airway Management
Pediatric Emergencies in Anesthesia
World War 1 and Anesthesia

**Jorge A. Gálvez MD MBI**
3D Printing for Anesthesiologists
Advanced Vascular Access Techniques
Anesthesia Information Management Systems
Big Data for Little Kids
Clinical Decision Support
Entrepreneurship/Innovation in Anesthesiology
Machine Learning in Pediatric Anesthesiology
Mobile Devices/mHealth

**Kathleen A. Harris, MD**
Autism and Preparing Your Child for Surgery/Anesthesia

**C. Dean Kurth, MD**
5 Steps to Improve Patient Safety
Anesthesia for EXIT Fetal Surgery
Anesthesia for Neonate With Difficult Airway
Anesthesia Management for Neonatal Surgery
CNS Monitoring for Congenital Heart Surgery
How to Set Up An Anesthesia Sedation Service in Radiology?
What is Quality in Pediatric Anesthesia?
3 Steps to Improve Anesthesia Medication Safety
A Journey in Quality Improvement
Anesthesia for Epilepsy Surgery
Anesthesia for the Micropremie
Anesthetic Neurotoxicity: Wean, Worry, or Wait?
Clinical Research Organization
Complex Surgery in a Neonate with Congenital Heart Disease
How to Build a Quality Program?
Latest and Greatest Pediatric Craniofacial Case
Latest Innovations in Pediatric Anesthesiology
Perspectives on Quality and Safety
Postoperative Apnea in Infants
Quality Improvement: Past, Present, and Future

**Justin Lockman, MD, MSeD**
Bedside Monitors Explained
Consent and Assent in Pediatric Anesthesia: Ethics and Legal Issues
Controversies in Pediatric Anesthesia
Crisis Resource Management Fundamentals
Crisis Resource Management principles
Life After Powerpoint: 21st Century Medical Education
Mastering Bedside Monitors
Neonatal Anesthesia
Pediatric Critical Care for the Anesthesiologist
Perioperative Airway Emergencies
Professionalism in Pediatric Anesthesiology
Trauma Potpourri
Why I’m Afraid of Babies (and you should be, too!)

Lynne Maxwell, MD
Anesthetic Management of Airway Foreign Bodies
Intravenous Acetaminophen
Neurotoxicity of Anesthetics in Newborns and Infants
Perioperative Management of the Diabetic Child
Postoperative Analgesia in Newborns
Safety and Efficacy of Analgesics in Newborns

Alan Jay Schwartz, MD
Anesthesia Education
Anesthesia for the Child with Congenital Heart Disease for Non-Cardiac Surgery
Pediatric Basic and Advance Cardiac Life Support Update

Allan F. Simpao, MD
Anesthesia and Perioperative Informatics
Anesthetic Management of Children with Cystic Fibrosis
Big Data and Analytics in Anesthesia
Maternal-feta Anesthesia
Social Medical for the Health Care Professional

Kha Tran, MD
Fetal Surgery
General Anesthesiology

Christopher Ward, MD
Anesthetic Neurotoxicity in the Developing Brain
Pediatric Difficult Airway Management

Jack O. Wasey, MD
Basic R Coding for Retrospective Research
Matching Methodologies for Retrospective Research
Propensity Score Matching Ba

Ari Weintraub, MD
Anesthetic Management of Patients with Congenital Hyperinsulinism
Endocrinopathies and Pediatric Anesthesia
Fetal Anesthesia
Management of the Pediatric Patient with Diabetes in the Perioperative Period
Pediatric Anesthesia in the Endoscopy Suite
Peripheral Nerve Blocks in Children and Adolescents

**Cardiology**

Vasculitis 101

Transplant Program

**BMT topics (Nancy Bunin, MD; Alix Seif, MD)**
"Boy in the Bubble" - Newborn Screenings, Immunology, and Blood & Marrow Transplant
Novel Approaches to Sickle Cell Management
Post-Transplant Lymphoproliferative Disorder

**Heart topics (Matthew O'Connor, MD; Karen McCandless PNP)**
Back to School: Focusing on Educational Re-Entry
Decreasing Mortality on the Pediatric Heart Transplant Wait List
Heart Transplantation in Children, ABO Incompatible Transplantation, Mechanical Assist Devices, What To Do
When A Child With A Heart Transplant Comes To Your ER; Heart Failure
Pediatric Heart Failure
Too Fat- or Too Thin? Impact of Weight Post-Transplant
Transplanting Complex Pts - Pediatric Heart Transplant

**Kidney Topics (Sandi Amaral MD (transplant nephrologist) ; Peter Abt, MD (surgeon))**
Adult-to-Child Donor Transplants: A Surgical Perspective
Back to School: Focusing on Educational Re-Entry
Immunosuppressive Management in Renal Transplant
Transplanting Adolescent Renal Patients: Adherence, Transitions to Adult Care
Transplanting Complex Pts - Pediatric Kidney Transplant

**Liver Topics (Liz Rand, MD, Kathy Loomes, MD; Kate Anderer, PNP, Becky Miller PNP, Kim**
Adult-to-Child Donor Transplants: A Surgical Perspective
Back to School: Focusing School Re-Entry
Expanding the Donor Pool: Use of DCD Donors
General Indications for Pediatric Transplantation
Long Term Follow Up and Complications from Pediatric Liver Transplantation.
Minimizing and Withdrawal of Immune Suppression in Liver Transplant
Transplanting Complex Pts - Pediatric Liver Transplant

**Lung topics (Sam Goldfarb, MD)**
"Working Hard & Hardly Working - Challenges in Adolescent Transplant Patients"
Back to School: Focusing on Educational Re-Entry
Growing Up: Transition to Adult Health care
Non-Adherence - How the Wheels Fell Off
Orphan Pediatric Lung Disease: Interstitial Lung Disease, Surfactant Deficiencies, Congenital Alveolar
Pediatric Lung Transplantation
Tolerance is the Holy Grail: Immuno-Suppression for the Non-Immunologist
Transplanting Complex Pts - Pediatric Lung Transplant
When is a Candidate for Transplant a 'Candidate'?

August 31, 2020
Urology

Generic Talks:
Below the Belt in Pediatric Urology – What’s a Pediatrician To Do
Current Management of Antenatally Detected Hydronephrosis: All That Is Dilated Is Not Obstructed
Disorders of Sexual Differentiation
Dysfunctional Voiding and Nocturnal Enuresis – The Pediatrician’s Handbook
Molecular Epidemiology of Hypospadias
Pediatric Andrology Potpourri
Pediatric GU Tumors
Pediatric Urology Update
Stones in the Pediatric Patients
Transitional Urology – What to do with the Aging Complicated Pediatric Patient
Urinary Tract Infections in Children and Vesicoureteral Reflux, Finding Consensus in Confusion

Douglas A. Canning, MD.
Below The Belt in Pediatric Urology - What's a Pediatrician To Do
Dysfunctional Voiding and Nocturnal Enuresis - The Pediatrician's Handbook
Hypospadias from A to Z
Pediatric Urologic Emergencies
Transitional Urology - What To Do With The Aging Complicated Pediatric Patient
Urinary Tract Infections in Children and Vesicoureteral Reflux, Finding Consensus in Confusion

Merritt Jensen PhD / Amanda Berry, CPNP
Behavioral Management of Dysfunctional Voiding
Psychological Issues in Intersex/Exstrophy

Thomas F. Kolon, MD
Cryptorchidism
DSD
Dysfunctional Voiding/Elimination
Hydronephrosis
Hypospadias
Pediatric Urology potpourri
research topics as requested/agreed upon
Stones
Urinary Obstruction
UTIs
Varicoceles
VU reflux

Christopher J. Long, MD
Circumcision
Hypospadias
Speakers Bureau

Pediatric Urologic Concerns for the Pediatrician
Pediatric Urologic Oncology
The Neurogenic Bladder

**Aseem R. Shukla, MD**
Advances in Minimally Invasive Urology
Antenatal Hydronephrosis
Posterior Urethral Valves—What’s New and What We Always Knew
The International Bladder Exstrophy Collaborative: A Model for Global Collaboration
The Potential of Global Surgery Engagement to Change the Paradigm of Healthcare at Home.
Transplant in the Urologically Complex Child
UTI and VUR and AAP UTI Guidelines

**Arun K. Srinivasan, MD**
Advances in Minimal Invasive pediatric urology
Antenatal Hydronephrosis
Complex Robotics & Laparoscopy in Reconstruction of Urinary Tract Anomalies
Congenital and Acquired Hernia
Low Rade Vesico-ureteral Reflux - Do We Need Antibiotics?
Obstructive Uropathy
Pediatric Urologic Malignancies
Stone Disease In Children
Technology In Medicine and Minimally Invasive Pediatric Reconstruction
Urachal Anomalies
Vesicoureteral Reflux

**Gregory E. Tasian, MD**
Cryptorchidism: What To Do and What Not To Do
Dietary and Environmental Determinants of Nephrolithiasis
Evaluation and Medical Management of Kidney Stone Disease in Children
The Rising Incidence of Stone Disease in Children: What’s Behind It?
Urinary Tract Infection in Children: Imaging and Antibiotics

**Jason Van Batavia, MD**
Congenital Anomalies of the Urethra
Correlation Between Detrusor Overactivity on Urodynamics and Shortened Lag Time on Robotic Surgery in Pediatric Urology
Urinary Tract Infections and Other complications After Urodynamic Studies in the Pediatric population

**Dana A. Weiss, MD**
A Newborn, a Toddler, and a Teen Walk into Your Waiting Room: Cases in Pediatric Urology
Antenatal Hydronephrosis: The Basics
Cloacal and Bladder Exstrophy
Management of Posterior Urethral Valves
Neuropathic Bladder and Myelomeningocele

August 31, 2020
Pediatric Urologic Overview
Prune Belly Syndrome
Urologic Trauma: How Did It Happen and What Are We Going to Do About It?!

Mark R. Zaontz, MD
Antenatal Renal Anomalies Including Hydronephrosis and Multicystic Kidneys
